VOL. XIX.]

FRIDAY, MAY 20, 1848.

[No. 5239.]

For the prevention and cure of  
LIQUOR AND MALIGNANT FEVERS  
is recommended  
**HAN'S ANTI-BILIOUS PILLS**  
His Medicine has been attended  
with a degree of success highly grateful  
to the inventor's feelings in several parts  
of the West Indies and in the Southern  
Middle States, &c.

The testimony of a number of persons  
has been adduced, who have reason to be-  
lieve that a timely use of this salutary re-  
medy has, under Providence, preserved  
their lives when in the most alarming cir-  
cumstances.

Effects of this conclusive nature speak  
in favour of a medicine than com-  
mon of pompous eulogy founded on  
mere assertion.  
It is not indeed presumptuously pro-  
claimed as an infallible cure, but the inven-  
tor has every possible reason that can re-  
sult from extensive experience for be-  
lieving that a dose of these Pills taken  
in every two weeks during the pre-  
sence of our bilious fevers, will prove  
an infallible preventive; and further,  
in the earlier stages of those diseases  
in use will very generally succeed in  
restoring health, and frequently in cases  
seemed desperate and beyond the pow-  
er of common remedies.

The operation of these pills is perfectly  
safe, so as to be used with safety by per-  
sons in every situation and of every age.  
They are excellently adapted to carry  
superfluous bile and prevent its mor-  
bid secretions—to restore and amend the  
appetite—to produce a free perspiration  
and thereby prevent colds which are of-  
ten of fatal consequences. A dose never  
fails to remove a cold if taken on its first  
appearance: they are celebrated for re-  
moving habitual costiveness—sickness at  
the stomach and severe head-ache—and  
ought to be taken by all persons on a  
change of climate.

They have been found remarkably effi-  
cacious in preventing and curing disor-  
ders attendant on long voyages, and  
should be procured and carefully preserv-  
ed for use by every seaman.

stinate coughs, asthma, sore throats, ca-

covery is of the first magnitude, as it af-  
fords immediate relief, checks the pro-  
gress, and in a short time entirely re-  
moves the most cruel disorders to which  
children are liable. The Elixir is per-  
fectly agreeable, and the dose so small  
that no difficulty arises in taking it.

application, may be used with perfect  
safety by pregnant women, or on infants  
a week old, not containing a particle of  
mercury or any dangerous ingredient  
whatever, and not accompanied with that  
tormenting smart which attends the ap-  
plication of other remedies.

## Hahn's true & genuine German Corn Plaster.

An infallible remedy for corns, speedily  
removing them root and branch, with-  
out giving any pain.

## The Genuine Persian Lotion.

So celebrated among the fashionable  
throughout Europe, is an invaluable cos-  
metic, perfectly innocent and safe, free  
from corrosive and repellent minerals,  
the basis of other lotions, and of un-  
paralleled efficacy in removing blemishes  
of the face and skin, freckles, pimples,  
inflammatory redness, scurfs, tetters, ring-  
worms, sunburns, prickly heat, &c.

# ALEXANDRIA GAZETTE AND DAILY ADVERTISER.

PUBLISHED BY  
**SAMUEL SNOWDEN,**  
ROYAL STREET.

Daily Gazette 87—Country Gazette 75.

FRIDAY, MAY 29, 1818.

From the Philadelphia Gazette.  
FROM LAGUNA.

We are indebted to a friend for the following translation from the Caracas Gazette, Extraordinary of the 29th April, received per the Josephine, arrived at this port on the 23rd inst.

Despatch of the commandant Don Antonio Pla, to his excellency the general in chief of the Expeditionary army.

Most excellent Sir.—After 26 hours of a most tedious march, we arrived early yesterday morning, without once resting, at Renion del Toro, half a league distant from St. Josef de Tinasos, where the rebel Bolivar was stationed, with more than 700 cavalry and 350 infantry. When we arrived near his encampment, and made prisoner a servant of his, who informed us where his master lay sleeping. The col. Don Rafael Lopez, ordered that the chief of the staff Don Tomas Renoyales, should proceed with a party of infantry to surprise him; but after having penetrated with the greatest secrecy through the enemies encampment, and approaching the spot where Bolivar lay asleep, he encountered the chief of the staff, but fearful of the miscarriage of the stratagem he threw himself towards the spot where the pretended supreme commander lay; he rising immediately at the moment they were about to surround him, fled to the mountains with the three persons who accompanied him; our party fired and the three were killed, among which was his priest, Friar Stephen Pedro. We remained in this state (they in the greatest alarm) until day break, when they presented themselves in line of battle far superior to ours, their infantry in the center and the cavalry on the two wings. Our line was composed of a company of honorary volunteer officers and the squadron of St. Francisco de Tinasos, under the command of col. Don Rafael Lopez. In the center the infantry in closed columns by the lieutenant colonel of the "Cazadores de Navarra," Don Salvador de Mendina. The left wing was occupied by the first and second column of Royal Lancers, under my orders, and the reserve consisted of the 3d and 4th squadron, under the orders of Lt. col. Don Pástor Garcia. Our cavalry was formed into half columns. The company of "Haqueadores," commanded by captain Reyes Alvarado, occupied the whole front; in this situation we found ourselves at day light at a half guns shot from one another. Our line moved on under a most gallant fire; but neither the superiority of the enemy, nor the untimely death of the commander who had so often led them to victory, appalled these valiant troops.

I fell on the right wing of the enemy, and after having routed their cavalry, I attacked the infantry with two small squadrons. I immediately broke their line, our troops attacked determined to exterminate them. At the same time the enemy's left wing commanded by Zarza, attempted to flank our right wing, but Capt. Don Miguel Carrioney Asopardo who commanded the 3d squadron that was in reserve, presented his front diagonally in so able a manner to cover this wing, that charging the enemy together with the squadron of St. Francisco, they routed him completely and decided the action. The example given by the chief of staff Renoyales, contributed greatly to this glory.

Our cavalry pursued the enemy in every direction, making a most horrible carnage till we destroyed their reserve. As soon as we remained masters of the field I sent lieutenant col. Don Josef Martinez, with 150 men to pursue those who had retreated by the road of Calabozza, he succeeded; but unfortunately for us, at a league and a half distance they were obliged to return with their saddles on their heads, on account of the bad state of their horses, so much so that if we had 300 useful horses, this day would have concluded the career of the traitors Bolivar, Cederio, Zarza, and the rest of their followers. The results of this brilliant action have been that the enemy has left more than 400 on the field of battle,

and 150 prisoners. Among the first, according to declarations taken, are brigadier general Pedro Leon Tomas, chief of the staff Standenter, colonels Galindo, Salon y Manrique, Lt. col. Pinango, and Silvestre Palacios, and the major Plaza. Among the second, lieutenant col. Manfredo Becsolari, attached to the staff, major Joseph Francisco and Juan de Dios Morales, capt. Florenio Tobar, Bolivar's aid de camp, and the surgeon Sebastian Olivares. Besides these prisoners, 150 women have fallen into our hands. We have likewise retaken, of the prisoners they took in St. Ferdinand, Lt. Don Francisco Argoa, ensigns Don Juan Antonio Galliani, and Don Joaquin Villamil, and Don Calisto Landacta. We have taken two stands of colors, one of which was presented to me by Rojas, a private of the corps of Lancers; all the baggage of the commanders and officers, including Bolivar's, was taken, and he was obliged to throw away his—and cap, with which he was disguised. Three ammunition chests, and three drums, as per annexed detail, likewise fell into our power. On our side there was no more loss than the death of the valiant col. Don Rafael Lopez, and seven officers, and dangerously wounded the captain of Royal Lancers, Don Regine Landacta, and Gil Gonzales, the ensign Gregorio Rivas, Vincente Bernader, the lieutenant of dragoons Don Benito Franco, with 21 privates more. All the commanders and officers behaved with the greatest bravery, and with the greatest courage, but I must particularly recommend to your excellency the Lt. col. Don Felipe Farias and Don Josef Meritior, captains Don Juan Sanchez, Don Basilio Castillo, Don Ignacio Peno, Don Regine Landacta, and Don Juan Bautista Urrutia, Captain Don Julian Nieves and the lieutenant of St. Francisco de Tinasos, exceeded any thing that could be expected, as likewise the flying artillery of Pao, under the orders of lieutenant Estavan Rado. The lieutenant of dragoons, Don Benito Frabon, is worthy of the highest consideration, for the example he gave in continuing the action after being wounded.

The chief of the staff Don Tomas de Renoyales, who besides having penetrated in the morning to the spot where Bolivar lay asleep, having lost his horse under him, still remained directing the guerrillas and other squadrons, which example was likewise followed by Don Miguel Carrioney Asopardo. The Lieutenant Col. of the Cordones de Navarra who commanded the infantry, led on to victory despising the enemy's fire, until he penetrated into his ranks. The 1st sergeant of the company Manuel Garcia Morente, distinguished himself in the action. In short most excellent sir, the officers and army have left nothing unwished for, as the result plainly demonstrates. I hope your excellency will not omit rewarding such distinguished valor, informing H. M. of the conduct of the heroes.

Encampment of Napire, April 18.  
Most Excellent Sir,  
(Signed) ANTONIO PLA.  
To H. E. the Commander in Chief.  
Note of the articles taken from the enemy in the action of the 17th inst. at the Rincon de los Toros, half a league from San Josef de Tinasos:  
530 muskets—50,500 cartridges—11,170 flints—400 lances—25 hatchets—2 cases of spades and axes—a complete furnace.  
Note.—We have likewise taken from them the rich booty they possessed, composed of Bolivar's baggage as well as that of the other officers who accompanied him, with many jewels, &c. of great value.  
Encampment of Napire, April 18, 1818.

A Boston Wonder, explained.—The shower of fishes stated to have fallen on the common of Boston, an account of which is now going the rounds of all the papers, is satisfactorily explained, by the editor of the Repository. It appears that "the little pond in the centre of the common had overflowed its banks, and that the fish, instead of descending from the clouds, had been left on the grass by the water of the pond, as it receded within its bounds. No fish were found except where the pond flowed." Thus this very excellent story is unfortunately spoiled.

We understand that President Monroe will leave this city in eight or ten days, on his contemplated tour to the South. His excellency is in fine health. Wash. Gaz.

Annapolis paper of the 16th mentions that the revenue cutter Active anchored there on the 18th inst. to wait the arrival of the President of the United States. It has been erroneously reported that he intended to embark in her for Norfolk, but those who have set such a report afloat ought to know better. The Active has no accommodations for the chief magistrate and suite: she was never contemplated by the Navy Department to be employed in this service.

Newport, May 20. On Saturday last, a Spanish brig of 18 guns, prize to a Buenos Ayrean privateer, run ashore on the east side of Block Island. She has a cargo of dry goods, brandy, wine, pepper, &c.; and the crew have been for some days past in a state of mutiny.

FROSTS. It is possible the late frosts in the southern states have destroyed the Hessian fly and other injurious insects in their chrysalis state.

In Delaware and Maryland, there is a prospect of an abundance of fruit.

The Hon. John Rush, of Philadelphia, from some experiments made, is of opinion that dried Godfish, cut into small pieces, and put in the earth, will drive away Moles from gardens. Take a smooth round stick of about an inch in diameter, sharpened at the point, and perforate the ground in the roads of the Mole; drop in a small lump of dirt, and your garden will be rid of these mischievous animals.

### MELANCHOLY EVENT.

In one of the London papers it is stated, on the authority of a letter from a merchant of Palermo, dated March 2d, that the city of Catania, in Sicily, had been destroyed by an earthquake. Catania, it is said, was making a dreadful noise, but no eruption had taken place. Catania was, from a similar cause, nearly destroyed in 1693, when eleven thousand persons perished.

A species grain called American barley, has been introduced in England—its handsome appearance induced several persons to sow a quantity of it, but it did not at all answer their expectations.

### EGYPTIAN MUMMY.

In one of the late vessels from Europe, there arrived here a genuine Egyptian Mummy, perhaps the first ever introduced into the United States. It is in a state of good preservation, and was procured in Egypt by Ward Nicholas Boylston, Esq. in his travels in that interesting and ancient quarter of the globe. He saw it taken from one of the catacombs at Memphis (Saccara). It is calculated that this embalment could not have been less than 24 centuries ago, as the most ancient writers mention, that the great art of embalment had been lost in Egypt for many ages. We feel indebted to this patriotic gentleman for this addition to the subjects of art and curiosity in our country.

The following instructions to officers of inspection for the port of Baltimore, are published for the information of masters of vessels and shippers of goods, going coastwise.

Custom House, Baltimore,  
Collectors Office, May 5, 1818.

The Inspectors of the Customs will please to notice, whenever coasting vessels come under their views, that foreign goods in original packages coming coastwise, are required by law to be accompanied with the invoices by which they were imported, certified as originals, or copies under the hand and seal of the collector of the district where they were imported. Special attention must be paid to them, and they must be detained till permits are issued for these particular packages. In cases of necessity, they may be immediately sent to the public store, and at any time by consent or request of the owners or consignees of the goods or the masters of the vessels.

### Norfolk, May 25

Captain Roxby, supercargo of the schr. La Florestine, from Martinique, states, that a few days before they sailed, a privateer schooner, about 80 tons burden, under the Patriotic flag, had put into St. Pierre for a supply of water. Suspicion, however, as to her character, was excited, and an investigation took place, in the course of which it was ascertained that she had three commissioned Captains on board, viz. a Frenchman, a Spaniard, and an American, who were thereupon seized and put in confinement. A sailor also deposed, that the privateer was from New Orleans, and that on her passage she had captured a French brig, out of which she took eight passengers, men and women, and landed and left them on a desolate island near Cayenne. The next day a government schr. arrived from said island, with the before mentioned passengers, and the consequence was, that the three captains and their crew were ordered into close confinement on shore to await their trial, which would come on in a few days after the La Florestine sailed.

Extract from the journal of a voyage in the ship Enterprise, lately arrived at Philadelphia—communicated for the Federal Gazette.

"From Brister's island we proceeded to the shores; [a small cluster of islands in south latitude 48, W. longitude 166] here we found three men who had been on an island seven years. A schooner in which they were, being short of provision, they chose to take their chance on shore. They took with them from the vessel a quart of rice, an iron pot and half a bushel of potatoes—the potatoes they planted, and when we were there, the whole side of the island seemed to be covered with them. They had built five houses and had 1500 dried skins. We took them and their skins on board, and brought them away from the island."

### James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from

LEE'S MEDICINE STORE,

No. 46, Maiden Lane, New-York a fresh supply of the following valuable MEDICINES:

### Hamilton's Worm destroying Lozenges.

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

### Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Terebra or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most fruitful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

### The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS and MALIGNANT FEVERS is recommended.

### Hahn's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason to can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance; they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

### Hamilton's Elixir.

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the HOOPING COUGH, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.
